

In the weekend you have to do three tasks. You have to write a record that takes 3 hours, write an assignment for 1 hour, prepare a project model for 5 hours. All the three tasks need to be submitted on Monday. Schedule the tasks.

1. Identify this Scheduling algorithm. Write it on your notebook and raise your hand.
 2. Prepare the input for this program.
 3. Display the table.
- [No need for Gantt chart and sorting]
